**Scenic and Historic Illinois**

On the verso is a note on "The Purpose of this Pictorial Map":

*This map is intended to depict the dramatic, historic and legendary events, and the great figures in Illinois history commemorated by Illinois State Parks and Memorials, and to portray some of the scenic beauties that are found in all sections of the State. Individual illustrations are shown as close to the actual locations of Parks or Memorials as possible but where numerous parks are located in the same vicinity, as in historic regions along the Illinois and Mississippi Rivers, illustrations have been shifted to permit adequate pictorial interpretations. Exact locations are given in the descriptions above, and the latest Illinois Official Highway Map should be consulted for touring directions.*
