Description:

A nice full color example of Munster's map of Europe in the shape of a Queen. During the late 16th Century, a few map makers created these now highly prized map images, wherein countries and continents were given human or animal forms. Among the earliest examples is this map of Europe by Munster, which appeared in Munster's Cosmography. This example comes from a German edition of Munster's Cosmography and is in full color. A bit of dampstaining in the upper left corner, else a nice example.
