Description:

Rare celestial map of the Constellation Sagittarius, from a rare geographical work published in Boston by Duncan Bradford

The image appeared in *The Wonders of the Heavens, being a popular view of astronomy, including a full illustration of the mechanism of the heavens; embracing the sun, moon, and stars, with descriptions of the planets, comets, fixed stars, double stars, the constellations, the galaxy, or Milky-Way, the zodiacal light, aurora borealis, or northern lights, meteors, clouds, falling stars, aërolites, &c. : Illustrated by numerous maps and engravings,* published in Boston by Duncan Bradford, Samuel Griswold, Samuel Goodrich and John B. Russell in 1837.

The engravers for the work are James Archer and George W. Boynton.
