**Description:**

***The Diamond & Gold Mines of South Africa***

Rare map of the Adamantia region of South Africa, published by James Wyld.

A very early map of the diamond fields. Pniel is shown but not Kimberley. The gold fields indicated are the Manica and Northern Gold Fields. The gold fields of the eastern Transvaal are not marked, nor, of course, the Witwatersrand.

This rare broadsheet map focuses on the region then called Adamantia, the Southern African Diamond Fields. The map was first published in 1871.

The map marks the goldfields in the Transvaal and to the north, in the Matabele, Mashona and Manica
