Description:

A nice example of the rare 1845 edition of Mitchell's map of the United States, first issued in 1831.

This edition has been updated, especially in the inset map of North America, where Texas is shown as a Republic. The depiction of Florida is very interesting, with only the earliest counties present. Allegorical view above title of the ingenuity of America. With eagle, forest, U.S. shield in rock, ships, factories, and man turning watergate on a canal.

This is a curious state, which lacks the 8 city vignettes noted in later editions, and retains Mitchell's 1836 copyright.

Detailed Condition:

A bit toned. Old varnished removed and the four sheets laid on fresh linen. In all, a good example of this scarce wall map.
