### Description:

Scarce map of the United States, published shortly after the Louisiana purchase.

The map includes interesting detail on both sides of the Mississippi River. A massive Indiana Territory takes up the old Northwest Territory. An oddly shaped Ohio appears below Indiana Territory, primarily in modern Illinois. Mississippi Territory includes Alabama and is full of Indian villages and forts. Western Tennessee and Kentucky are sparsely populated and include several forts.

Several conjectural mountain ranges dominate the Plains, along with forts and Indian Villages.

The source of the Mississippi & Missouri Rivers reflects the map's predating Lewis & Clark and Humboldt.
