Price: SOLD

Description:

Chromolithographic Trade Card Atlas of the World

A visually compelling "Atlas" compiled from the popular Arbuckle Brothers Coffee Company trade cards series.

Maps include Hawaii (Sandwich Islands) and the United States, along with 48 other "nations," including Newfoundland, Cape Colony, Siam, Siberia, Central Africa, Austro-Hungary, German Empire, Greenland, and a few others that were either never really "nations" or are no longer countries.

The atlas consists of 4 maps per page, all in full color with map surrounded by representative scenes from each state. Opposite each page of map cards are notes about each state shown. The state information includes population, weather, agriculture, manufacturing, and geography. Each note includes a plug for "Arbuckles' Ariosa Coffee."

in the mid-1880's, the Arbuckle Brothers began to include "trade cards" in packages of their coffee.
