**Size:** 30.25 x 14.75 inches  
**Price:** SOLD

**Description:**

***Persuasive Map Promoting Montreal As The Start Point for Trans-Atlantic Travel***

Interesting promotional map, illustrating the various Canadian Pacific Railway Routes to Montreal and thereafter to Europe by Steamship.

Apparently intended to illustrate the benefits (39% less time travel by sea) of choosing to embark on Transatlantic steamship to travel to Europe from Montreal, rather than departing from New York or Boston.

On the verso, two smaller maps illustrate the routes of the Canadian Pacific Steamships.

**Detailed Condition:**

Folding map printed on front and back.
