### Description:

Highly detailed map of Texas, from Cram's *Standard American Railway Atlas*. The map shows Texas in two parts, with an inset of the northernmost part of the state in the lower left.

The map shows counties, railroads, railway stations, township surveys, mountains, rivers, lakes, and a host of other early details. The map also shows county seats, money order post offices, and other commerce details. The title is decoratively presented.

As with many of Cram's maps, this is the best large format commercial atlas map of Texas from the period.
