**Size:** 23 x 18 inches  
**Price:** SOLD

### Description:

The first edition of this scarce and under appreciated map of the colonies. The map is remarkable for its detail and the for its unusual placenames. Pennsylvania, Virginia, the Carolinas & Georgia extend to the Mississippi tentatively. Florida also extends to the Mississippi. The rivers & Indian Tribes of the Mississippi Basin are shown in detail. Many early forts are shown. The region west of the Mississippi is Mississippi or Louisiana. A number of other early notes & places shown, including Walker's Establishment in 1750 (Kentucky). Massachusetts Bay is still a province. Neither Maine nor Vermont has been created. An excellent early map of the 13 United States. The margins have been extended, apparently to fit into contemporary binding. Fine original color.
