Stock#: 93054
Map Maker: NASA

Date: 1971 February 5
Place: n.p.
Color: Color
Condition: VG+
Size: 10 x 7.5 inches

Price: $ 1,800.00

Description:

This striking photograph, AS14-66-9277, taken on February 5, 1971, showcases the Apollo 14 Lunar Module (LM) situated on the Moon's surface during the first Apollo 14 extravehicular activity (EVA). The astronauts have proudly erected the U.S. flag, signifying their triumphant lunar landing. Visible at the base of the LM ladder is the laser ranging retro reflector (LR-3), which was deployed at a later time during the mission. While astronauts Alan B. Shepard Jr., the commander, and Edgar D. Mitchell, the lunar module pilot, embarked on their lunar exploration, astronaut Stuart A. Roosa, the command module pilot, remained in lunar orbit aboard the Command and Service Modules (CSM).

Detailed Condition:
1969 chromogenic photograph on paper watermarked "A KODAK PAPER" on verso. NASA ID number "AS14-[66]-9277" in black ink on verso.
