**Date:** 1825  
**Place:** London  
**Color:** Hand Colored  
**Condition:** VG  
**Size:** 20 x 18 inches  
**Price:** SOLD

### Description:

#### *On The Eve of the War of 1812*

An attractive and highly detailed map of the Northern portion of the United States, from John Cary's *New Universal Atlas*.

The map includes the District of Main with an undefined northern boundary with Canada (which was then under dispute), as well as Ohio still shown as "The Western Territory," with the Indian Boundary Line established by the Treaty under General "Mad Anthony" Wayne in 1795.

The map contains many worthy features. At the mouth of the Cayanhoga River on Lake Erie, there is a note concerning a 70 ft rock which makes navigation dangerous. Another note indicates that the easiest passage from Lake Erie to the Mississippi and Ohio Rivers is via the Sandusky and Sioto Rivers. A proposed fort is noted south of Detroit. The western boundary of the 6 Indian Nations in western New York is noted. There are similar notes throughout the map, including annotations on each of the Great Lakes.

The map is highly detailed and includes towns, roads, rivers, Indian details, springs, and a host of other information. A marvelous collector's map.
