Haemisphaerium Stellatum Boreale Cum Subiecto Hemisphaerio Terrestri

Stock#: 9451
Map Maker: Cellarius
Date: 1660
Place: Amsterdam
Color: Hand Colored
Condition: VG
Size: 20 x 17 inches
Price: SOLD

Description:

One of Cellarius' full hemispheric maps of the constellations, this example showing the Northern Sky from earth. A gorgeous full color example. Cellarius' maps are the most coveted of celestial maps, blending the striking imagery of the golden age of Dutch Cartography with contemporary scientific knowledge. Cellarius full hemisphere maps are becoming increasingly difficult to find, especially in such beautiful full color. Minor repaired tear just touching the image, near the centerfold, else a near fine example.
