**Description:**

Gorgeous full color example of Homann's map of the Course of the Mississippi River, based upon the reports of Hennepin, who explored the upper Mississippi and Great Lakes regions as a Jesuit Missionary in the late 1600s. The map follows the work of De L'Isle. The Mississippi is oddly misprojected, with the Ohio and several other rivers splitting to the east and tracking near a vignette showing Idnians hunting long horn buffalo. The western rivers, including the Missouri, are equally inaccurate. The map shows a number of explorers routes throughout the Southwest and Louisiana and annotations regarding various regions. Many Indian Tribes and early forts named. Florida is an archipelago. Nice detail in Texas. A striking full color example. Goss 49; Cumming 170; McCorckle 720.1; Sellers & Van Ee 102; Day 401; Lowery 475; Wheat 144.
