## Virginiae Partis australis, et Floridae partis orientalis, interjacentiumq regionum Nova Descriptio

**Stock#:** 9969  
**Map Maker:** Ogilby / Montanus  
**Date:** 1671  
**Place:** London/Amsterdam  
**Color:** Uncolored  
**Condition:** VG+  
**Size:** 14 x 11.5 inches  
**Price:** SOLD

### Description:

Excellent example of the Ogilby/Montanus map of the Southeast, extending from the York River in Virginia to northern Florida. The map is based largely upon Blaeu's map of 1640 and Jansson's map of 1641, although with much richer cartouches and several coats of arms. The work was prepared under the direction of Dr. Olaf Dapper and engraved by Jacob Meurs in Amsterdam. The copyright was obtained in 1670 and there are English editions with a 1670 title page. A rich dark impression of this fine early map. Cumming 67.
