**Date:** 1864  
**Place:** New York  
**Color:** Uncolored  
**Condition:** VG+  
**Size:** 16 x 13 inches  
**Price:** SOLD

### Description:

An unusual chart showing the comparative sizes of the major lakes and islands of the Eastern and Western Hemispheres. While Mountain and River Charts were common in 19th Century Atlases, this lakes and islands chart is very unusual. A wide margined example in vivid color. This is the rare 1859 edition which bears Johnson & Browning's imprint, shortly before they created their own New Illustrated Family Atlas of the World. Classical Colton decorative border.
